EDUCATION

Harvard University	**Cambridge, MA**
Ph.D. in Electrical Engineering	2021–2027 (EXPECTED)

Hardware-software co-design of efficient hardware architectures for deep learning. Advised by Prof. H. T. Kung (link). GPA: 3.90/4.00

Federal University of Pernambuco	**Recife, Brazil**
B.Sc. in Electronics Engineering	2016–2021

1st out of 40 students, GPA 8.90/10. Senior Thesis: *iOwlT: Sound Geolocalization System* (link).

RESEARCH

Detailed information can be found here.

EfficientAI/TinyML (Meta AI/AFRL collab)	2021–PRESENT
Harvard University	

Designing algorithms to improve deep neural networks efficiency (i.e. quantization, pruning, knowledge distillation, etc). Past work adresses bottlenecks such as data conversions, nonidealities, programming time and weight mapping of compute-in-memory crossbars.

iOwlT: Sound Geolocalization System (link)	2019–2020
Federal University of Pernambuco	

Developed a system using neural networks, adaptive filtering and real-time processing in FPGAs to recognize sound events and determine gun shooters location on a mobile application. Earned 3 international awards at InnovateFPGA 2019 in China (Top 0.7%).

Lock-in: Nano-Volt Signal Amplifier (link)	2019–2020
Federal University of Pernambuco	

Design and optimization of a phase-sensitive lock-in amplifier advised by the former Minister of Science and Technology of Brazil Prof. Sergio Rezende to investigate magnetic properties of IrMn/Py thin films using MOKE technique.

iTraffic: Smart Semaphore Network (link)	2017
Federal University of Pernambuco	

Design and proposal of an internet of things intelligent system to dynamically choose traffic lights timing to optimize vehicle flow on urban roads using genetic algorithm. Achieved 130% improvement in the average speed of cars in tested tracks.

Maracatronics: Robotics Team (link)	2017
Federal University of Pernambuco	

Member of the collective autonomous soccer sub-team, acting on robots control on Tiva-C microcontroller, computer vision mapping and tracking, and intelligent robots decision-making strategies. Achieved 5th Place at XVI Latin American Robotics Competition.

SELECTED PUBLICATIONS

WORK EXPERIENCE

Nissan Advanced Technology Center	**Silicon Valley, CA**
AI Hardware Accelerator Intern	SUMMER 2025

Led AI accelerator architecture exploration and C++ behavioral modeling. Designed vectorized processing elements optimized for self-driving vehicles, synthesizing RTL using Vitis HLS. Conducted architecture performance analysis and benchmarking, delivering reports on resource utilization and timing metrics.

Neurotech	**Recife, Brazil**
Machine Learning Operations Intern	2020–2021

Implemented 5 machine learning algorithms for creditworthiness assessment system. Built end-to-end ML pipeline using PyTorch for model development, ONNX for production deployment, and MLflow for experiment tracking and model management.

TEACHING

Harvard University

CS242 – *Computing at Scale*	FALL 2024, FALL 2025 (HEAD TA)
CS205 – *High Performance Computing for Science and Engineering*	SPRING 2023

Federal University of Pernambuco

ES456 – *Machine Learning*	FALL 2020
MA326 – *Complex Variables and Applications*	SPRING 2018, FALL 2019
FI007 – *Physics II: Gravitation, Waves and Thermodynamics*	FALL 2017, SPRING 2018
MA026 – *Calculus I: Limits, Derivatives and Integrals*	FALL 2016

AWARDS AND RECOGNITIONS

Full Member at Sigma Xi, the Scientific Research Honor Society   2025
International
Nominated to the world's largest general research honor society. Founded in 1886, with 200+ Nobel laureates among its members.

R$100k Prize at Who Wants to be a Millionaire   2025
Brazil
Correctly answered 11 out of 15 questions in the world's most competitive trivia game.

1st Ecossis Award of Innovation and Sustainability at Mostratec (The biggest S&T fair in LatAm)   2024
Brazil
SIMBA is an AI-powered sound localization system that monitors *Antilophia bokermanni*, an endangered bird of cultural value in Brazil.

MIT Innovator Under 35 in Artificial Intelligence   2024
Brazil
Title given to top innovators in Science and Technology under the age of 35.

Líder Estudar Fellow ("the Brazilian Rhodes Scholarship")   2024
Brazil
One of the 26 students over 45,000 candidates – the most competitive scholarship in the country.

Bronze Medal at the Online Young Physicists' Tournament   2023
Online
8th place at the Online Young Physicists' Tournament 2023.

Silver Medal at the International Young Physicists' Tournament (Physics World Cup)   2023
Murree, Pakistan
2nd place at the 36th International Young Physicists' Tournament 2023 Pakistan.

Behring Foundation Fellowship   2021–PRESENT
Harvard University
Honored by the Behring Foundation with a fellowship to cover my graduate studies at Harvard.

Three International Awards at InnovateFPGA 2019 Contest   2019
Tianjin, China
2 Silver Awards (*Grand Finals* and *Regional Finals*) and Community Award (*Best project in America*). 2nd out of 270 teams with iOwlT.

PIBIC/CNPq funding to do research ("the Brazilian National Science Foundation fellowship")   2019
Brazil
Awarded by national government funding to do research for Lock-in: Nano-Volt Signal Amplifier.

5th Place at XVI Latin American Robotics Competition   2017
Latin America
In the Small Size League category of autonomous soccer with Maracatronics: Robotics Project.

1st Place at Embedded Systems Regional Contest   2017
Brazil
1st out of 14 teams with iTraffic: Smart Semaphore Network.
